

# We Guarantee Recovery.

Fee: \$25

No Recovery. No Fee.

Brennan & Clark, Ltd.

## Fax Demand Service

Why are you reluctant to turn accounts over for collection? The most common answers we hear is that it's too costly and you are afraid you may lose the customer.

What if we could ensure that the cost was well under control and your concerns about your relationship with your customer were addressed to your satisfaction?

If you believe there is room for improvement in the time it takes you to collect your accounts receivable, we'd like to introduce our **Fax Demand Service**.

This highly effective economical system is guaranteed to produce results.

**In fact, you only pay for results achieved.**

### The Fax Demand System

We develop three customized faxes to be sent to non-responsive past due accounts. They are strategically written to get results from the key person with authority to pay this debt.

If payment is made you are charged for this collection. When debtor ignores our request, we will initiate personalized collection action against this debtor at our standard contingent fee. You will not be charged for the fax demand

because it did not produce recovery. If you choose to take other action, this service is totally flexible.

Our minimum agreement is for ten units and your satisfaction is guaranteed.
